

CHARGES FOR COLOUR FIGURES

International Musculoskeletal Medicine (IMM) welcomes the inclusion of colour illustrations. However, if a manuscript is accepted for publication with colour figures, authors or their institution must pay the production costs for any illustrations that are to appear in colour in the journal. The costs of colour publication are laid out below:

- | | | |
|-------------------------------|--------|---------|
| • One printed page of colour: | £770 | \$1,460 |
| • Two pages of colour | £1,092 | \$2,130 |
| • Three pages of colour | £1,420 | \$2,770 |

If you are willing to pay such charges, please fill out the lower part of this form and fax or mail it to the Editorial Office. You will receive an invoice for the actual charges when the PDF proofs are prepared for your examination. Please note: *your willingness to pay does not necessarily mean that the Editor will accept the paper with its figures as submitted.*

If it is not possible for you or your organisation to assume the extra charges, you should revise the manuscript to reduce the number of figures and avoid the need for colour reproduction, or provide figures that can be reproduced appropriately in black and white.

Title of manuscript: _____

Number of colour figures: _____

_____ I will pay for the charges when invoiced.

_____ My organisation will pay the charges when invoiced.

The invoice address is as follows:

_____ Use the address for the Corresponding Author

_____ Invoice the following (please print):

Corresponding Author's signature _____

Name (print) _____

Phone: _____

Fax: _____

Email: _____
